

#Changes from last Dockerfile are indicated in highlights
Here we **remove** the RUN and insert **&& ** under RUN commands

FROM nginx:latest

LABEL maintainer="kalyan.m@gmail.com"

RUN yum install -y && \

yum install -y httpd net-tools && \

RUN mkdir -p /run/httpd && \

RUN rm -rf /run/http/* /tmp/httpd*

No different RUN commands but ONLY ONE , with several && \

CMD echo "This is a Dockerfile test message"

ENV ENVIRONMENT="production"

EXPOSE 80

CMD ["-D", "FOREGROUND"]

ENTRYPOINT ["apachectl"]

FROM centos:6

LABEL maintainer="kalyan.m@gmail.com"

RUN yum install -y httpd net-tools && \

mkdir -p /run/httpd && \

rm -rf /run/http/* /tmp/httpd*

CMD echo "This is a Dockerfile test message"

ENV ENVIRONMENT="production"

EXPOSE 80

CMD ["-D", "FOREGROUND"]

ENTRYPOINT ["apachectl"]
